

Life Issue Bible Study

A Christian Response to Abortion

Introduction

On January 22, 1973 abortion on demand was legalized in the United States of America by the United States Supreme Court. Abortion was made legal in all fifty states during anytime of a pregnancy for any reason. Many ask, "Where were the Christians? Where was the Church? Where were we?"

Abortion is thought by many to be the most important issue facing our country today, as important as slavery was in the 1800s. Will God bless America when we are killing a third of our preborn population? How can we return our country to sanctity of life ethic? When will this culture of death stop?

This four session Bible study was prepared with the idea of equipping Christians with the tools and information necessary to understand what abortion is, what God's Word says about preborn life and what we must do.
